## Westfield Partners with INDOT on SR 32 improvements

**Westfield, IN** – The Town of Westfield announced today that as a result of a partnership with the Indiana Department of Transportation (INDOT), The SR 32 improvement project (from US 31 to Springmill Road) will incorporate changes into the project plans that will ultimately include public opinion. INDOT has agreed to reopen the design plans because of the public input gathered from Westfield's development community, Town Council, Chamber of Commerce and Public Works Department.

Specifically, the Town of Westfield requested that INDOT incorporate some aesthetics into their plans including planted medians, which were specifically requested by the community. "It has been a pleasure working with INDOT over the last few months," says Westfield Town Council President Andy Cook. "We were able to work together for the good of the community and INDOT made a tremendous effort to make that happen," says Cook.

During this process, Westfield held meetings with the property owners affected by the INDOT improvement project in hopes of gathering critical information and opinions about the project. After reviewing the information gathered from meetings with the property owners, INDOT agreed to incorporate changes into the plans.

Construction on the SR 32 improvement project is scheduled to begin in 2007.
